

Science: Pudding Slime

Ingredients

Materials

If mixing is tricky to do have the student tell the adult what to do in the steps. Or when they should 'go' and add the materials in.

Step 1: **Put in** instant pudding mix to bowl.

Step 2: **Put in** of your cornstarch to the bowl.

Step 3: **Put in** 1/3 cup of water to the bowl.

Step 4: **Stir** mixture until slime begins to form (it will be pretty sticky at this point).

Step 5: **Slowly put in** the rest of your cornstarch, stirring as you go.

Step 6: **When slime thickens and is hard to stir with a spoon. Use your hands.**

Step 7: **Play!**
