

Science: Galaxy Jars

Materials

Step 1: **Fill** 1/3 of the jar with water.

Step 2: **Put in** several drops of tempera paint in the water.

Step 3: **Put on** the cover and shake the jar.

Step 4: **Put in** glitter to the water and paint mixture.

Step 5: Stretch out the cotton balls adding them to the water until the bottom is filled with cotton. Use a knife or spoon to push down the cotton balls.

Step 6: **Mix** some more water and paint together and then add to the jar.

Step 7: **Add** more cotton balls to the jar and glitter.

Step 8: Enjoy!
